ASSA ABLOY, the global leader
in door opening solutions

The security you need is finally in reach

Featuring Aperio™ technology, IN100 locks make access control easy and affordable. As part of the Aperio family of wireless locks, the IN100 offers easy expansion of existing access control systems to bring a new level of control to your facility.

Redefining wireless access control

Aperio Technology

- Minimal field configuration for quick, easy wireless deployments that eliminate the cost and inconvenience of complex wireless site surveys
- Fully-encrypted AES 128 wireless communication between the IN100 lock and Aperio hub; high security standardized communications ensures data security
- Global Aperio technology is ideal for companies who wish to deploy a standard infrastructure across multi-national locations
- Available across a range of locking hardware from ASSA ABLOY Group brands, Aperio provides the flexibility to address a variety of applications throughout your facility.

IN100 Features & Benefits

- Integrated reader, monitoring and short range wireless radio simplifies installation and reduces material costs
- Real-time door status monitoring with REX, DPS, tamper, and low battery signals offers the ability to respond immediately to situations at opening
- SARGENT hardware, available in: 10 Line Bored Lock and 7900 Series Mortise Lock, offers the flexibility to support a variety of openings
- Supports HID® 13.56 MHz iCLASS® contactless credentials (full authentication, all formats); integrates easily with existing credential systems

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria. MicroShield® is a registered trademark of Yale Security Inc., an ASSA ABLOY Group company.
