

**New Generation**  
**ACCESS CONTROL**

## INNOVATION AND KNOW HOW

Access control solutions have rapidly become an integral part of the corporate world, becoming so widespread that they have now begun to be used by private individuals.

However, their modes of use need to change: Today, a fail-safe security solution must be simple and adapted to the environment in which it is used, because a tailor-made answer combined with user comfort is the best guarantee of the optimum daily security.

Immotec's approach marks the beginning of a new era for access control  
It is becoming SIMPLE, FUNCTIONAL and ever more RELIABLE

Our isafePro 360 Verso dual-processor central access control station with redundancy function guarantees you optimum fault-free security.

Equipped with an RS485 extension bus, it allows you to manage up to 42 doors by adding V-EXT4 extension modules and up to 840 doors in total. Its native TCP/IP connection allows you to access it from any computer connected to the network both inside your company and outside **via the internet.**

- Power supply: 12VDC
- Consumption: 300 mA
- 3.5A CRT relay outputs
- 3 transistorised outputs
- 10/100 Mbps TCP/IP
- Optical isolated RS485 extension BUS
- Flash memory module
- 8 NO/NC inputs

- New-generation Dual processor
- 15000 Identifiers, 15000 events
- RS485 extension bus
- Native TCP/IP
- Anti-passback, anti time back and transit delay on all readers
- 128 time slots
- 64 automated systems

# iSafe VISOR 360 – Supervision and Access Management Software

Our iSafePro 360 Visor latest generation supervision and access management software is the tool which allows you to control access within your structure with complete flexibility.

Equipped with many user assistance features and capable of managing up to 840 readers. Intuitive and ergonomic, it is very simple to use and easy to install.

Visor software allows you to view one or more sites and combines interactivity and technology to guarantee optimum access control.

- Many user assistance features
- Ergonomic customisable software
- Badge printer management
- Biometrics management
- Voice messages

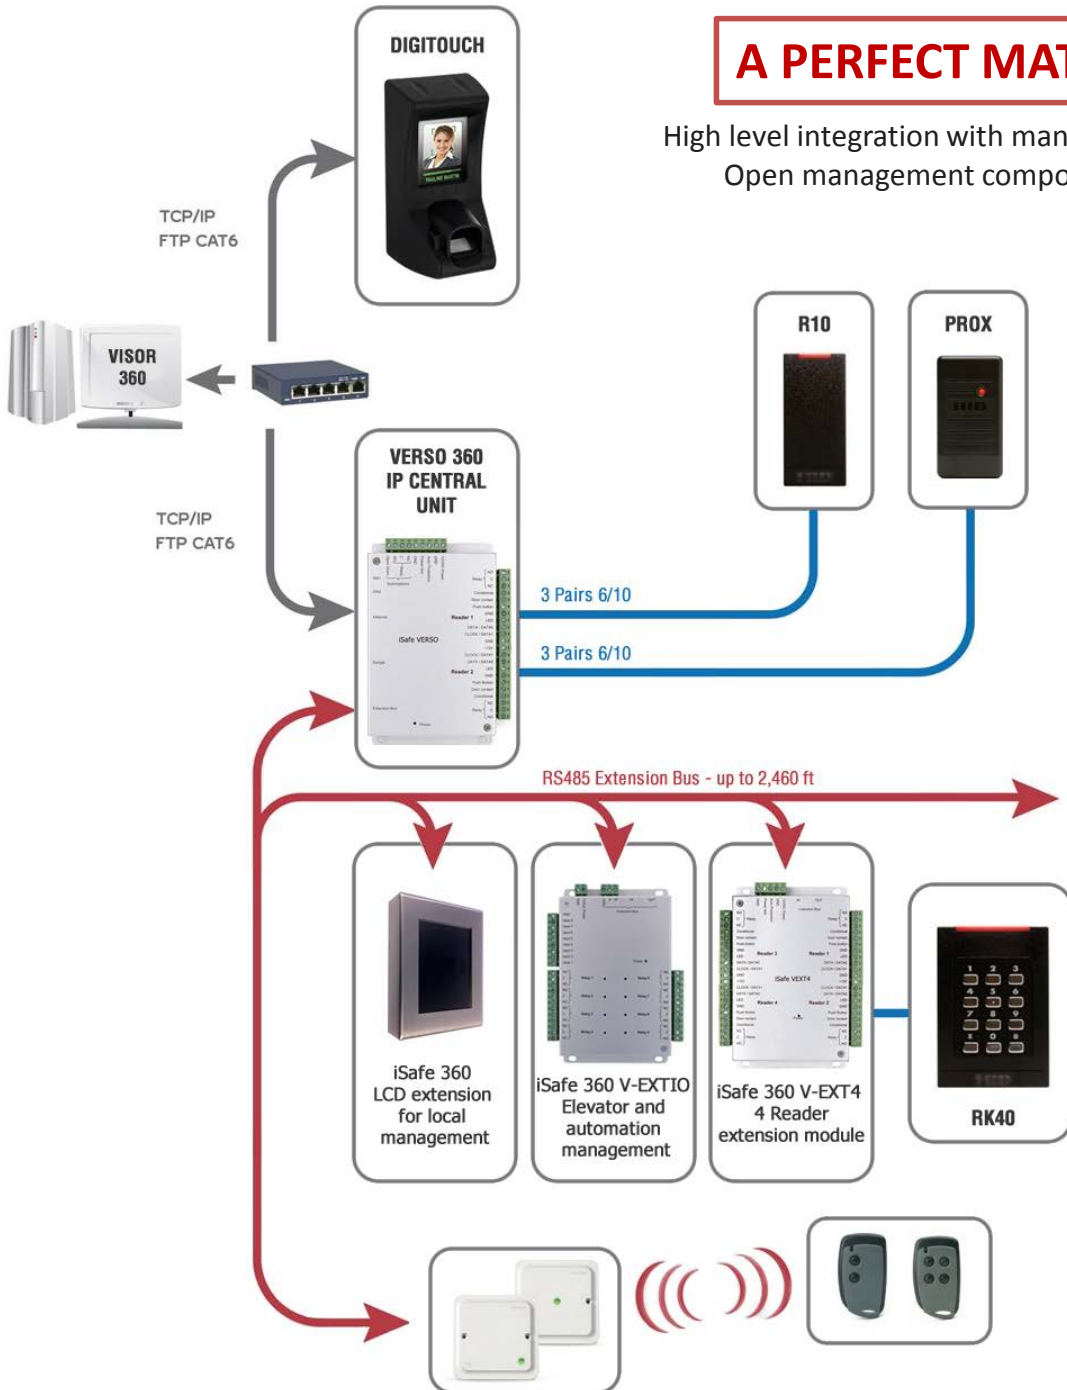

## Technical specifications

- Management of 1 to 840 doors
- Compatibility: Windows 7, XP, Vista
- Access or SQL Server database configurable at the time of creation of the site
- Automatic detection of control stations connected
- Software customization by creation of shortcuts for the most commonly used functions
- Automated systems with scenarios
- Data import
- Management of 3 crisis levels
- Lift management with free access per floor
- Unlimited manager profiles
- Overview of site(s) with real-time status of door inputs/outputs and readers
- Configurable listings, exports for printing and /or sending by E-mail
- Time and attendance

# A PERFECT MATCH

High level integration with many powerful Open management components.

## iSafePro VISOR 360 Software

- ◆ 15,000 Identifiers
- ◆ Management of 1 to 840 access doors
- ◆ Supports all protocols
- ◆ Supports offline functionality
- ◆ Active mapping
- ◆ Compatibility: W7-XP-Vista
- ◆ Multi-Language
- ◆ Supports Access or SQL Server database
- ◆ Software Dongle for added security
- ◆ Random code management

# References:

"I had a fantastic experience installing the iSafePro Verso 360 and expansion modules along with the Visor 360 at a large factory. The hardware was easy to wire up and install and the software was very easy to use and configuration was a breeze. I will be recommending this product in the future."

**Mr. Jason Waschlik**  
President and CEO, Fortress Security Inc.

"We have been dealing with IMMOTEC for a number of years and we appreciate the high level of service and the quality of the product supplied. We have supplied numerous projects with no complaints and no product related problems."

**Mr. Mark Ettridge, CET**  
President, Alldoor Supply Inc.

"We installed the iSafe access control system in several of our stores due to their ease of set up and configuration via the web. It is very convenient for the users to make changes locally or remotely. There is also no maintenance work required. In all, a very dependable system."

**Mr. Herman Poon**  
Administration Manager, T&T Supermarket Inc.

"It was great to be able to call you and receive immediate support for my question today. The system continues to work extremely well. I really appreciate all that you do for us here at the HNHB LHIN."

**Mrs. Sheila Stirling**  
Corporate Services Assistant, HNHB LHIN.

"The isafe Pro access control system is so reliable and easy to use; we want it in all of our buildings."

**Mr. Dragan Babin**  
Property Manager, Greenwin Inc.
